### Please note:

#### Trial conditions:

**LexiaUK will loan software and give online training and support free of charge on the understanding:**

1. Software sent for evaluation is used regularly with students.
2. You work with your technician to have software set up promptly (support is available if required).
3. You agree to be trained by our representative. Initial online training takes approx. 45 minutes followed by a short review session.
4. Keep us and your colleagues who are involved in the decision making process up to date regarding progress.
5. Towards the end of the trial period, the school will discuss needs in preparation for a prompt purchase or uninstall if the software is not required.

I have read and understand the trial conditions. I am aware a Lexia consultant will contact me shortly to briefly discuss my needs and assist in implementing a successful evaluation.
