

FAQ: Which Android tablets can I use Lexia on?

Contact: Lexia Customer Support support@lexialearning.com

US: (800)-507-2772 Outside US: 978-405-6231

The Lexia Reading® Core5® (version 2.8 and later) and Lexia Strategies™ apps for Android™ are supported on the following devices:

- Google Nexus 7" (2012 and 2013)
- Google Nexus 10"
- Google Pixel C
- Samsung Galaxy Tab S2

The following devices can be used, but have poor performance in some Core5 activities and are not supported:

- Samsung Galaxy Tab 3 10"
- Samsung Galaxy Tab 4 (supported on Core5 v2.5)
- Samsung Galaxy Tab Pro
- Samsung Galaxy Note 10.1

Please contact Lexia Customer Support if you have questions about your specific Android device.

Notes:

- The device must be able to access the Google Play Store in order to download the app.
For this reason, Kindles cannot use Lexia apps for Android.
- Using the Android apps on Chromebooks is not supported.
- Android tablets that run on an Intel-based chipset are not supported but may be able to run Core5 with slow performance.
