Lexia® *Good Classroom Practice*

Lexia's Three Best Practice Goals:

1. Students are timetabled to interact with the software (typically 3 x 20 min/week).

2. Teachers utilise reports to monitor student performance (typically once/week).

3. If necessary, students receive additional practice based on their performance (lesson plans and worksheets are provided by the system).

Introducing Lexia to Students

The **Auto Placement** feature is a one-off assessment, placing students at the appropriate starting point in the program.

Prior to student usage:

- Ensure all headphones and sound is working/unmuted.
- Briefly introduce Lexia's purpose and explain Auto Placement.
- Emphasise they must not guess answers or rush – 'just do your best'.
- Inform students to use the on-screen rehear or directions buttons for support—do not guess!
- Demonstrate how to log on.
- Ensure all students are settled for the task and understand instructions.

Only provide login passwords once the above is complete. *The blue apple indicates the student is working in Auto Placement Mode. You are now ready to proceed!*
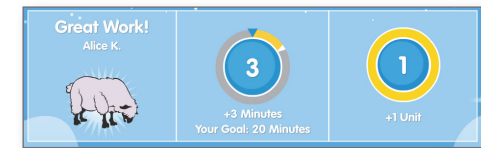

Tips for Students: *(remind at every session)*

☑ **Never rush or guess** – always listen carefully and use the repeat button. If still unsure, students must raise their hand for help.

☑ **Do not exit a unit until the coloured progress bar has filled up at the bottom of the screen.**

☑ **When they have completed a level, tell the teacher they are due a certificate!**

Teacher/Supervisor Keys to Success:

Lexia users rapidly accelerate reading skills when used for 3 x 20 minute sessions/week.

☑ **Closely supervise the group** to ensure they are on task and help is available when required.

☑ **Check for a red apple icon which indicates student difficulty.** (see Activity Screen bottom left hand side).

☑ **Ensure identified strugglers understand the activity.** If the problem persists, provide additional support.

☑ **Login to www.mylexia.com at least 1x/week to monitor usage**, check progress, plan instruction and print certificates.
