

# Introducing Lexia® Academy **New!**

## Innovative eLearning to support today's educators

Lexia Academy is an eLearning platform that supports educators' professional development with meaningful and relevant learning opportunities — anytime, anywhere. Courses in Lexia Academy integrate resources and strategies to support blended learning, literacy instruction and product implementation. Lexia Academy provides educators with learning opportunities to practice their skills and better support their students.

## THE LEXIA ACADEMY EXPERIENCE

Educators engage with multimodal learning formats designed to facilitate direct application and bolster knowledge acquisition, including:

- Expert Videos
- Printable Instructional Resources
- Interactive Content and Lessons and Digital Badges
- Course Completion Certificates

**Lexia Academy is an eLearning platform that supports educators' professional growth with meaningful and relevant learning opportunities — anytime, anywhere.**

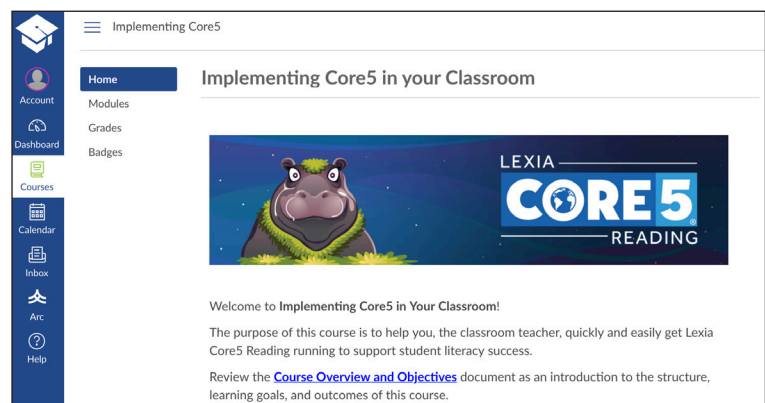

# Educators expand their skills and gain practical knowledge

Courses are designed to help educators of all levels gain a deeper understanding of literacy instructional strategies and of Lexia products and how they support effective literacy instruction. Educators refine their skills in support of accelerating student literacy as they progress in Lexia® Academy. Used in conjunction with the Lexia® Core5® Reading and Lexia® PowerUp Literacy™ implementations, Lexia Academy offers self-paced online courses that are aligned with effective literacy instruction.

## IN-DEPTH COURSE MATERIALS

First, educators review the Course Overview and Objectives that clearly map out the content, learning objectives and goals.

### MODULE 2: Monitoring Student Progress with myLexia

This module will review the use of myLexia reports to monitor student progress and plan for instruction.

#### Learning Goals

- Understand student data available on the Class Overview Report and Class Table
- Identify ways instruction can be adjusted based on the Class Overview
- Identify the students making adequate progress and those students not making adequate progress using myLexia data

**CORE5**

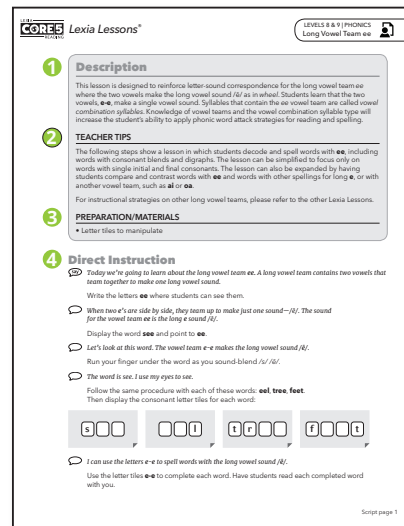

Badge received  
upon completion:  
**Data Diver**

Next, educators access learning modules and dive into key resources. Courses are structured with incremental learning segments to help busy educators to apply knowledge and new skills immediately in classrooms.

## DYNAMIC INTERACTIVE CONTENT

A variety of interactive materials including lessons, activities, and an immersive scope and sequence make it fun and easy for educators to learn. As educators acquire skills and gain deeper knowledge they validate their understanding with Knowledge Checks.

*Educators benefit from the interactive content for point of use instruction and support.*
